CONSIDER THE POSSIBILITIES

There is so much to learn. Think about it--questions that have answers teach you things. Questions that don't have answers can actually teach you more. How is this so?

Questions that don't have answers take you to a land of possibilities. This magical land knows no limit, and all you need is a little courage and you will be taken to lands of golden opportunities. Whole new worlds that you didn't know existed, opens up for you. Take a step through the doors and swim in the pool of exciting, new possibilities. By doing so, you'll leave behind old restrictions that you thought existed. Such limitations might not be set in stone, as you had believed.

What reason is there for anyone to remain stuck in a place that isn't good? None! There are gates to be walked through, open gates that lead you to a better place.

Decide to look a little deeper, or from a different angle. If you do this, you'll find an ocean full of possibilities for what can be. Look further...beyond the things that concern you at this moment. Be bold, have the audacity to imagine the most wonderful life that you can imagine!

To live fully is to be aware and open to all that life has available for us. Countless possibilities exist, and these possibilities become greater with each passing minute. And, in these possibilities you will find what it is that will usher you to the place you'd like to be.

Think about: There's no reason to remain stuck in a place that isn't good!

[5] Circle the correct word:

- This magical land knows [*no limits / limits*].
- Whole new worlds that you [*know / didn't know*] existed, opens up for you.
- By doing so, you'll leave [*ahead / behind*] old restrictions that you thought existed.
- He bold, have the audacity to [*image / imagine*] the most wonderful life...
- Countless possibilities exist, and these possibilities become [*greater / lesser*] with each passing minute.
- Questions that don't have answers can teach you that you actually have [*fewer / many*] possibilities, that you are not limited to just one answer!
